NOTICE 718 OF 2020

**INTERNATIONAL TRADE ADMINISTRATION COMMISSION OF
SOUTH AFRICA**

**NOTICE OF INITIATION OF A SUNSET REVIEW OF THE ANTI-DUMPING DUTIES ON
PORTLAND CEMENT ORIGINATING IN OR IMPORTED FROM THE ISLAMIC
REPUBLIC OF PAKISTAN**

In accordance with the provisions in Article 11.3 of the World Trade Organization Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade, any definitive anti-dumping duty shall be terminated on a date not later than five years from its imposition, unless the authorities determine, in a review initiated before that date, on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry within a reasonable period of time prior to that date, that the expiry of the duties would likely lead to continuation or recurrence of dumping and injury.

On 24 May 2019 the International Trade Administration Commission of South Africa (the Commission) notified interested parties through Notice No. 284 of 2019 in *Government Gazette* No. 42474, that unless a substantiated request is made indicating that the expiry of the anti-dumping duties against imports of Portland cement originating in or imported from the Islamic Republic of Pakistan would likely lead to the continuation or recurrence of dumping and injury, the anti-dumping duties on Portland cement originating in or imported from the Islamic Republic of Pakistan would expire on 17 December 2020.

A response to the sunset review application questionnaire was received from the Concrete Institute NPC on behalf of the Southern African Customs Union (SACU) industry on 24 August 2020.

THE APPLICANT

The application was lodged by the Concrete Institute NPC (also referred to as "the Concrete Institute") on behalf of Afrisam (South Africa) Proprietary Limited, Lafarge Industries South Africa Proprietary Limited, Intercement South Africa Proprietary Limited, PPC Limited, and Dangote Cement South Africa Proprietary Limited (also referred to as "Sephaku"). The application is supported by Mamba Cement (non-participating SACU producer).

The Applicant alleges that the expiry of the duties would likely lead to continuation or recurrence of dumping and material injury. The Applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that a sunset review investigation of the anti-dumping duties on Portland cement originating in or imported from the Islamic Republic of Pakistan, should be initiated.

THE PRODUCT

The product allegedly being dumped is Portland cement classifiable under tariff subheading 2523.29 originating in or imported from the Islamic Republic of Pakistan.

THE ALLEGATION OF THE CONTINUATION OR RECURRENCE OF DUMPING

The allegation of continuation or recurrence of dumping is based on the comparison between the normal values and the export prices.

In calculating the normal value for Pakistan, the Applicant submitted information from the Pakistan Bureau of Statistics ("PBS"), which publishes weekly Sensitive Price Indicator ("SPI") reports covering a limited list of commodities, including cement. The

SPI reports record retail prices, stated in Pakistan Rupees ("PKR"), for eight different cities in Pakistan, and record a weekly national average.

In calculating the export price for Pakistan, the official South African Revenue Service (SARS) statistics for the period 1 January 2019 to 31 December 2019 were used.

The dumping margin was determined to be 43.49%.

On this basis, the Commission found that there was *prima facie* proof of the likelihood of the continuation or recurrence of dumping.

THE ALLEGATION OF RECURRENCE OF MATERIAL INJURY

The Applicant alleges and submitted sufficient evidence to show that it would experience an increase in imports, decline in sales, price undercutting and suppression, decline in profit, output, productivity, market share, capacity utilization, inventories, and growth, if the duties expire.

On this basis the Commission found that there was *prima facie* proof of the recurrence of material injury if the duties expire.

PERIOD OF INVESTIGATION

The investigation period for dumping is from 1 January 2017 to 31 December 2019 and the injury investigation involves evaluation of data for the period of 1 January 2017 to 31 December 2019. The Commission will also consider estimates of what the situation will be, if the anti-dumping duties expire.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the

initiation of an investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act).

The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement) and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters and known representative associations. The trade representative of the country of origin has also been notified. Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- X where confidential information has been omitted and the nature of such information;
- X reasons for such confidentiality;
- X a summary of the confidential information which permits a reasonable

- understanding of the substance of the confidential information; and
- X in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) *management accounts;*
- (b) *financial accounts of a private company;*

- (c) *actual and individual sales prices;*
- (d) *actual costs, including cost of production and importation cost;*
- (e) *actual sales volumes;*
- (f) *individual sales prices;*
- (g) *information, the release of which could have serious consequences for the person that provided such information; and*
- (h) *information that would be of significant competitive advantage to a competitor;*

Provided that a party submitting such information indicates it to be confidential

PROCEDURES AND TIME LIMITS

The Senior Manager: Trade Remedies I, should receive all responses, including non-confidential copies of the responses, not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for an extension.

Please note that the Commission will not consider requests for extension by the Embassy on behalf of foreign producers.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted would subsequently be available for verification. Specifically, it is planned to verify the information submitted by the foreign producers within three to five weeks subsequent to the submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to appointed representatives, will not be considered to be good cause.

Parties should also ensure when they engage representatives that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the ITA Act and the ADR. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire,

unless the Commission has agreed in writing to a deviation from the required format. A failure to submit a non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties, who experience difficulty in furnishing the information required, or submitting information in the format required, are urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submissions only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing must provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information is not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Should you have any queries, please do not hesitate to contact investigators at the following e-mail addresses; Ms Regina Peta at Rpeta@itac.org.za or Mr Thabelo Tshikomba at TTshikomba@itac.org.za.
