- (a)(i) In terms of the Agreement, annual tariff rate quotas apply to the goods originating in and imported from the MERCOSUR Member States as specified in the columns below into SACU States provided the importations comply with other provisions of the Agreement, this Note ,any rules applicable thereto and the following Notes (1) and(2) to Annex II of the Agreement:
 - "Note: (1) These Tariff Rate Quotas shall be controlled by a competent Government authority in the exporting country. The latter must ensure that, at the time of export, certificates of origin are not issued for consignments in excess of the annual quota limitation. The Signatory Parties concerned shall, on a six-monthly basis, inform the SACU Secretariat of the quota allocations per company and actual exports that have taken place under these quotas. In the case of non-compliance with this provision, SACU may suspend these preferences.
 - (2) The Signatory Party/Parties concerned shall not apply export subsidies and/or export credits, as defined in Articles 9 and 10 of the WTO Agreement on Agriculture, neither shall they apply trade and production distorting domestic support, as defined in the WTO Agreement on Agriculture, to the products eligible for preferential treatment under these Tariff Rate Quota's. A remark to this effect shall be entered in block 7 of the certificate of origin. The Signatory Parties concerned shall, upon request, provide in a transparent and expedite manner the necessary information to allow SACU to monitor compliance with this provision."

2. All operations carried out either in MERCOSUR or in SACU on a given product shall be considered together when determining whether the working or processing undergone by that product is to

be regarded as insufficient within the meaning of paragraph 1.

⁴ simple mixing", generally describes activities, including dilution in water or any other substance which does not substantially alter the product characteristics, which need neither special skills nor machines, apparatus or equipment specially produced or installed for carrying out the activity. However, simple mixing does not include chemical reaction. Chemical reaction means a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

⁵. The term "the other requirements", mentioned in paragraphs 4 and 5 of this Article, does not include the requirements of direct transport and exhibition, since those requirements shall be checked by the customs authority of the importing country.

⁶ The term "the other requirements", mentioned in this Article, does not include the requirements of direct transport and exhibition, since those requirements shall be checked by the customs authorities of the importing country.

⁷.Obvious formal errors include, but are not limited to, typing errors, and exclude deliberate errors.

⁸. The term "the other requirements", mentioned in paragraphs 2 and 6 of this Article, does not include the requirements of direct transport and exhibition, since those requirements shall be checked by the customs authorities of the importing country.

GOVERNMENT GAZETTE,

21 OCTOBER 2016

Article 7 Unit of qualification 1. The unit of qualification for the application of the provisions of this Annex shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System. It follows that: when a product composed of a group or assembly of articles is classified in accordance with the Harmonized System in a single heading, the whole constitutes the unit of qualification; (a) and when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the (b) provisions of this Annex. 2. The packages and packing materials for retail sale, when classified together with the packaged product, in accordance with General Rule 5 (b) of the Harmonized System shall not be taken into account for considering whether all non-originating materials used in the manufacture of a product fulfil the criterion corresponding to a change of tariff classification of the said product. If the product is subject to an ad valorem percentage criterion, the value of the packages and packing material for retail sale shall be taken into account in its origin assessment. 3. Article 8 Accessories, spare parts and tools Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question. Article 9

Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the price of the set (price of the product).

Containers and packing materials for transport

The containers and packing materials exclusively used for the transport of a product shall not be taken into account for determining the origin of any good or product, in accordance with General Rule 5 (b) of the Harmonized System.

Article 11

Neutral elements

- 1. In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture:
 - (a) energy and fuel;
 - (b) plant and equipment;
 - (c) machines and tools; and
 - (d) goods which do not enter into the final composition of the product.

Title III

Territorial Requirements

Article 12

Principle of territoriality

- 1. The conditions for acquiring originating status set out in Title II must be fulfilled without interruption in MERCOSUR or in SACU.
- 2. Where originating goods exported from MERCOSUR or from SACU to another country are returned, they must be considered as non-originating when re-exported to MERCOSUR or SACU, unless

it can be demonstrated to the satisfaction of the customs authorities that:

- (a) the returning goods are the same as those exported; and
- (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

Article 13

Direct transport

- 1. The preferential treatment provided for under the Agreement applies only to products satisfying the requirements of this Annex, which are transported directly between MERCOSUR and SACU. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, transhipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition. Originating products may be transported by pipeline across territory other than that of Signatory Parties.
- 2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:
 - (a) a single transport document covering the passage from the exporting country through the country of transit; or
 - (b) a certificate issued by the customs or competent authority of the country of transit:
 - (i) giving an extract description of the products;
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used; and
 - (iii) certifying the conditions under which the products remained in the transit country; or
 - (c) failing these, any substantiating documents.

Article 14

Exhibitions

1. Originating products, sent for exhibition in a country outside the Signatory Parties and sold after the exhibition for importation into MERCOSUR or into SACU shall benefit on importation from the

provisions of the Agreement provided it is shown to the satisfaction of the customs or competent authority that:

- (a) an exporter has consigned these products from MERCOSUR or from SACU to the country in which the exhibition is held and has exhibited them there;
- (b) the products have been sold or otherwise disposed of by that exporter to a person in MERCOSUR or in SACU;
- (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and
- (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.
- 2. A certificate of origin must be issued or made out in accordance with the provisions of Title IV and submitted to the customs authorities of the importing country in the normal manner. The name

and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with

a view to the sale of foreign products, and during which the products remain under customs control.

Title IV Certificate of Origin Article 15 **General requirements** 1. Products originating in a Signatory Party shall, on importation into MERCOSUR or SACU, benefit from the Agreement upon submission of a certificate of origin, a specimen of which appears in Appendix III. 2. Notwithstanding paragraph 1, originating products within the meaning of this Annex shall, in the cases specified in Article 23, benefit from the Agreement without it being necessary to submit the certificate of origin. Article 16 Procedure for the issue of a certificate of origin 1. A certificate of origin shall be issued by the customs or competent authority of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative. 2. For this purpose, the exporter or his authorised representative shall complete both the certificate of origin and the application form, specimens of which appear in Appendix III. These forms shall be completed in English, in accordance with the provisions of the domestic law of the exporting country. If they are handwritten, they shall be completed in ink in block letters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through. The exporter applying for the issue of a certificate of origin shall be prepared to submit at any time, at the request of the customs authorities or competent authority of the exporting country where 3. the certificate of origin is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Annex. A certificate of origin shall be issued by the customs or competent authority of MERCOSUR or of SACU if the products concerned can be considered as products originating in MERCOSUR or in 4. SACU and fulfil the other requirements of this Annex.

⁹ The term "the other requirements", mentioned in paragraphs 4 and 5 of this Article, does not include the requirements of direct transport and exhibition, since those requirements shall be checked by the customs authority of the importing country.

OCTOBER 2016

The customs or competent authority issuing certificates of origin shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this

Annex. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

- The date of issue of the certificate shall be indicated in Box 11 of the certificate. 6.
- A certificate of origin shall be issued by the customs or competent authority and made available to the exporter as soon as actual exportation has been effected or ensured. 7.

Article 17

5.

Certificate of origin issued retrospectively

- 1. Notwithstanding Article 16(7), a certificate of origin may exceptionally be issued after exportation of the products to which it relates if:
 - it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or (a)
 - (b) it is demonstrated to the satisfaction of the customs or competent authority that a certificate of origin was issued but was not accepted at importation for technical reasons.
- 2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the certificate of origin relates, and state the reasons for his request.
- 3. The customs or competent authority may issue a certificate of origin retrospectively, if requested by the exporter within six months from the date of the exportation, and only after verifying that the information supplied in the exporter's application corresponds with that in the records of the issuing office or the authenticity thereof have been verified.
- Certificates of origin issued retrospectively must be endorsed with the words "ISSUED RETROSPECTIVELY". 4.
- The endorsement referred to in paragraph 4 shall be inserted in the "Remarks" box of the certificate of origin. 5.

Article 18

This gazette is also available free online at www.gpwonline.co.za

Issue of a duplicate certificate of origin

- 1. In the event of theft, loss or destruction of a certificate of origin, the exporter may apply to the customs or competent authority which issued it for a duplicate made out on the basis of the export documents in their possession or of which the authenticity thereof have been verified.
- 2. The duplicate issued in this way must be endorsed with the word "DUPLICATE".
- The endorsement referred to in paragraph 2 shall be inserted in the "Remarks" box of the duplicate certificate of origin. 3.
- The duplicate, which shall indicate the date of issuance and the number of the original certificate in the "Remarks" box, shall take effect as from that date. 4.

Issuing of a certificate of origin on the basis of a proof of origin issued or made out previously

- 1. When originating goods are placed under the control of a customs office in a Member State of SACU or MERCOSUR, it shall be possible to replace the original proof of origin by one or more certificate/s of origin for the purpose of sending all or some of these goods elsewhere within the Member States of SACU or MERCOSUR. The replacement certificate of origin shall be issued by the competent governmental authority under whose control the products are placed.
- 2. In the case of MERCOSUR, this article shall apply only to the Signatory Parties that have decided on its implementation and that have duly notified the Joint Committee thereof.

Article 20

Validity of certificate of origin

- 1. The certificate of origin shall be valid for six months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
- 2. Certificates of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
- 3. In other cases of belated presentation, the customs authorities of the importing country may accept the certificates of origin where the products have been submitted before the said final date.

Article 21

This gazette is also available free online at www.gpwonline.co.za

Submission of certificate of origin

Certificates of origin shall be submitted to the customs authority of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a certificate of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 22

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authority of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonized System falling within Sections XVI and XVII, Chapter 90 or headings 7308 and 9406 of the Harmonized System are imported by instalments, a single certificate of origin for such products shall be submitted to the customs authority upon importation of the first instalment.

Exemptions from certificate of origin

- 1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a certificate of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Annex and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
- 2. For the purposes of paragraph 1:
 - (a) imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is intended; and
 - (b) in case of small packages or products forming part of travellers' personal luggage, the total value of these products shall not exceed the value stipulated in the national legislation of the Signatory Party concerned.

Supporting documents

- 1. The documents referred to in this Article 16(3) used for the purpose of proving that products covered by a certificate of origin can be considered as products originating in MERCOSUR or in SACU and fulfil the other requirements of this Annex may consist *inter alia* of the following:
 - (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;
 - (b) documents proving the originating status of materials used, issued or made out in MERCOSUR or in SACU where these documents are used in accordance with domestic law;
 - (c) documents proving the working or processing of materials In MERCOSUR or in SACU, issued or made out in a MERCOSUR or in SACU, where these documents are used in accordance with domestic law; or
 - (d) certificates of origin proving the originating status of materials used, issued or made out in MERCOSUR or in SACU in accordance with this Annex.

Article 25

Preservation of certificate of origin and supporting documents

- 1. The exporter applying for the issue of a certificate of origin shall keep for at least three years the documents referred to in Article 16(3).
- 2. The competent authority of the exporting country responsible for issuing certificates of origin shall keep for at least three years the application form referred to in Article 16(2).
- 3. The customs authority of the importing country shall ensure the availability, for at least three years, of the certificates of origin submitted for preferential treatment.

10. The term "the other requirements", mentioned in this Article, does not include the requirements of direct transport and exhibition, since those requirements shall be checked by the customs authorities of the importing country.

Discrepancies and formal errors

- 1. The discovery of slight discrepancies between the statements made in the certificate of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not, *ipso facto*, render the certificate of origin null and void if it is duly established that this document does correspond to the products submitted.
- Obvious formal errors on a certificate of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.¹¹

Title V

Arrangements for Administrative Co-operation

Article 27

Notifications

The customs or competent authorities of SACU and MERCOSUR shall provide each other, through the SACU and the MERCOSUR Secretariats respectively, with specimen impressions of official stamps and signatures (used in their offices) for the issue of certificates of origin and with the addresses of the customs or competent authorities responsible for verifying the authenticity of the certificates of origin and the correctness of the information given therein.

Article 28

Verification of certificate of origin¹²

- 1. In order to ensure the proper application of this Annex, MERCOSUR and SACU shall assist each other, through the customs or competent authorities, in checking the authenticity of the certificates of origin and the correctness of the information given in these documents.
- 2. Subsequent verifications of certificates of origin shall be carried out at random or whenever the customs or competent authority of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Annex.
- 3. For the purposes of implementing the provisions of paragraph 1, the customs or competent authority of the importing country shall return the certificate of origin, if it has been submitted, or a copy of these documents, to the customs or competent authority of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the certificate of origin is incorrect shall be forwarded in support of the request for verification.
- ¹¹. Obvious formal errors include, but are not limited to, typing errors, and exclude deliberate errors.
- 12. The term "the other requirements", mentioned in paragraphs 2 and 6 of this Article, does not include the requirements of direct transport and exhibition, since those requirements shall be checked by the customs authorities of the importing country.

- 4. The verification shall be carried out by the customs or competent authority of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
- 5. If the customs authority of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the

products shall be offered to the importer subject to any precautionary measures judged necessary.

- 6. The customs or competent authority requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in MERCOSUR or in SACU and fulfil the other requirements of this Annex.
- 7. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authority shall, except in exceptional circumstances, refuse entitlement to the preferences.
- 8. The requesting customs or competent authority shall inform the customs or competent authority of the exporting country of its decision on the basis of the verification in question.

Article 29

Dispute settlement

- 1. Where disputes arise in relation to the verification procedures of Article 27 which cannot be settled between the customs or competent authority requesting a verification and the customs or competent authority responsible for carrying out this verification or where they raise a question as to the interpretation of this Annex, they shall be submitted to the Joint Administration Committee, without prejudice to the Parties' or the Signatory Parties' rights to have recourse to the Dispute Settlement mechanism of this Agreement.
- 2. In all cases the settlement of disputes between the importer and the customs or competent authority of the importing country shall be under the legislation of the said country.

Article 30

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 31

Free Zones

- 1. The treatment to be afforded to goods from Free Zones will be subject to a decision to be reached as foreseen in the Understanding on Free Zones attached to this Annex as Appendix IV.
- 2. In the interim, MERCOSUR and SACU shall take all necessary steps to ensure that products traded under cover of a proof of origin, which in the course of transport use a free zone situated in

their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

Final Provisions

Article 32

Review

The Joint Administration Committee shall review this Annex no later than three years after the entry into force of the Agreement, or in the event of a new round of negotiations intended to deepen or broaden the scope of the Preferential Trade Agreement and, as appropriate, propose to the Parties amendments to the criteria for the determination, application and administration of origin.

Article 33

Traditional provisions for goods in transit or storage

The provisions of the Agreement may be applied to goods which comply with the provisions of this Annex and which on the date of entry into force of the Agreement are either in transit or are in MERCOSUR or in SACU in temporary storage in customs warehouses or in free zones, subject to the submission to the customs or competent authority of the importing country, within six months of the said date, of a certificate of origin issued retrospectively by the customs or competent authority of the exporting country together with the documents showing that the goods have been transported directly in accordance with the provisions of Article 11.

ANNEX III

APPENDIX I

Introductory notes to the list in Appendix II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 5 of Annex III.

Note 2:

- 2.1 The first two columns in the list describe the product obtained. The first column gives the chapter number, heading number or sub-heading used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2 Where several heading numbers are grouped together in column 1 or a chapter number given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under Harmonized System, are classified in headings of the chapter or in any headings grouped together in column 1.
- 2.3 Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4 Where, for an entry in the first two columns, a rule is specified in both column 3 and 4, the exporter may opt, as an alternative, to apply either the rules set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3:

- 3.1 The provisions of Article 5 of Annex III, concerning products having acquired originating status which is used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory whether these products are used or in another factory in the territory of a Signatory Party.
- 3.2 The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status, conversely, the carrying out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3 Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.
- 3.4 Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentage given. Furthermore the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:	
4.1 For the	purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:
(a)	vacuum-distillation;
(b)	re-distillation by a very thorough fractionation-process;
(c)	cracking;
(d)	reforming
(e)	extraction by means of selective solvents;
(f)	the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite
(g)	polymerisation;
(h)	alkylation; and/or
(i)	isomerisation.
4.2 For the	purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:
(a)	
(b)	re-distillation by a very thorough fractionation-process;
(c)	cracking;
(d)	reforming;
(e)	Extraction by means of selective solvents;
(f)	the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated charcoal or bauxite;
(g)	polymerisation;
(h)	alkylation;
(i)	isomerisation;
(j)	in respect of heavy oils of heading ex 2710 only, desulphurization with hydrogen, resulting in a reduction of at least 85 per cent of the sulphur-content of the products processed (ASTM D 1266-59 T method);

- (k) in respect of products of heading 2710 only, de-paraffining by a process other than filtering
- (I) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 degrees C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (m) in respect of fuel oils of heading 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300 degrees C by the ASTM D 86 method;
- (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge; and/or
- (o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75 per cent of oil) of heading ex 2712 only, deoiling by fractional crystallisation.
- 4.3 For the purpose of headings 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, desalting, water-separation, filtering, colouring, marking, obtaining a sulphurcontent as a result of mixing products with different sulphur contents, any combination if these operations or like operations, do not confer origin.
- 4.4 Chemical processing rules to confer originating status

Section VI of the HS tariff classification: Products of the Chemical or Allied Industries (Chapter 28-38)

Rule 1: Chemical Reaction Origin

A good of Chapters 28 through 38, which is subject to a chemical reaction, shall be treated as an originating good if the chemical reaction occurred in the territory of one or more of the Signatory Parties.

Note: For the purposes of this section, a "chemical reaction" is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of determining whether a product is an originating good:

- (a) dissolution in water or in other solvents;
- (b) the elimination of solvents including solvent water; or
- (c) the addition or elimination of water of crystallization.

Rule 2: Purification Origin

A good of Chapters 28 through 38, that is subject to purification, shall be treated as originating provided that one of the following occurs in the territory of one or more of the Signatory Parties:

- (a) purification of a good resulting in the elimination of 80 per cent of the content of existing impurities; or
- (b) the reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:
 - (i) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;
 - (ii) chemical products and reagents for analytical, diagnostic or laboratory uses;

- (iii) elements and components for use in micro-elements;
- (iv) specialized optical uses;
- (v) non toxic uses for health and safety;
- (vi) biotechnical use;
- (vii) carriers used in a separation process; or
- (viii) nuclear grade uses.

APPENDIX II to ANNEX III:

List of working or processing required to be carried out on non-originating materials in order that the product manufactured can obtain originating status

Note: The products mentioned in the list may not all be covered by this Agreement. It is therefore necessary to consult the other parts of this Agreement. The working or processing mentioned hereunder will only be applicable to products specified in Annex I and Annex II of this Agreement.

Notes

- 1. Certificates must not contain erasures or words written over one another. Any alterations must be made by deleting the incorrect particulars and adding any necessary corrections. Any such alteration must be initialed by the person who completed the certificate and endorsed by the Customs authorities or competent authority of the issuing country.
- 2. No spaces must be left between the items entered on the certificate and each item must be preceded by an item number. A horizontal line must be drawn immediately below the last item. Any unused space must be struck through in such a manner as to make any later additions impossible.
- 3. Goods must be described in accordance with commercial practice and with sufficient detail to enable them to be identified.
- 4. In the cases of traded goods invoiced by a third operator, the following (reproduced from the commercial invoice) shall be inserted in Box 7: the name, address and country of the supplier of the goods and the number and date of the invoice therefor. If this number is not known at the time the certificate is issued, the importer shall present to the corresponding customs authorities or a competent authority a sworn declaration giving the reasons for that.

OCTOBER 2016

ANNEX III APPENDIX IV Understanding the Free Zones SACU and MERCOSUR agree to continue their work to develop a common approach to the treatment of products manufactured or produced in Free Zones. In doing so, they will ensure balance in the PTA and consider the specific role and impact of Free Zones in the economic development of the Signatory Parties. For that purpose: 1. Within ninety (90) days after the signing of the Preferential Trade Agreement (PTA) between MERCOSUR and SACU, the Signatory Parties will designate focal points (names, titles, positions, contacts) for carrying out the commitments established in this Understanding. 2. Within thirty (30) days after the designation of the focal points, MERCOSUR and SACU will create a Joint Working Group to: (a) analyze the rules, operations and overall procedures of Free Zones in MERCOSUR and SACU, facilitate missions, that may include Embassy officials, to visit Free Zones in the respective territories of the Parties in order to verify in loco the conditions under which they operate (including customs controls). (b) and make recommendations on the treatment of goods from Free Zones under the PTA, taking into account the importance of effective customs controls and compliance with rules of origin of the PTA. (c) 3. Within the Joint Working Group, MERCOSUR and SACU will exchange requests for documents and information they may consider necessary for the assessments on their Free Zones. Both sides will respond to questions and requests within a reasonable period of time after receiving them. 4. The Joint Working Group shall submit its findings and proposals to the Joint Administration Committee for a decision.
